

# Ideation Phase

## Brainstorm & Idea Prioritization Template

|               |                        |
|---------------|------------------------|
| Date          | 11 July 2026           |
| Team ID       |                        |
| Project Name  | Customer Care Registry |
| Maximum Marks | 4 Marks                |

### Brainstorm & Idea Prioritization Template:

Brainstorming provides a free and open environment that encourages everyone within a team to participate in the creative thinking process that leads to problem solving. Prioritizing volume over value, out-of-the-box ideas are welcome and built upon, and all participants are encouraged to collaborate, helping each other develop a rich amount of creative solutions.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

### Step-1: Team Gathering, Collaboration and Select the Problem Statement

#### Define your problem statement

What problem are you trying to solve? Frame your problem as a "How Might We" statement. This will be the focus of your brainstorm.

#### PROBLEM

How might we build a centralized system to record, track, and resolve customer complaints and feedback efficiently, so support teams can respond faster and improve customer satisfaction?

### Key rules of brainstorming — To run a smooth and productive session

- Stay on topic.
- Encourage wild ideas.
- Defer judgment.
- Listen to others.
- Go for volume.
- If possible, be visual.

## Step-2: Brainstorm, Idea Listing and Grouping

|                              |                           |                                |                          |
|------------------------------|---------------------------|--------------------------------|--------------------------|
| Centralized ticket dashboard | Live chat support         | Interaction history log        | Feedback & rating system |
| Auto ticket categorization   | Email & SMS notifications | Analytics dashboard for trends | Escalation matrix        |
| SLA tracking & alerts        | FAQ knowledge base        | Role-based access control      | Multi-channel support    |

### Group ideas

Ideas were clustered into themes while sharing, giving each cluster a short label.

|                                                                                                                                                                                                                                                               |                                                                                                                                                                                             |

### Step-3: Idea Prioritization

Placing idea groups on this grid to determine what's important and feasible to build first.
