

Acceptance Testing
UAT Execution & Report Submission

Date	11 July 2026
SID	SWUID2026230011
Project Name	Customer Care Registry (MERN Stack)
Maximum Marks	4 Marks

1. Purpose of Document

The purpose of this document is to briefly explain the test coverage and open issues of the **Customer Care Registry** project at the time of its release to User Acceptance Testing (UAT). It summarizes defect resolution across severity levels and the pass/fail status of test cases covering registration, ticket management, feedback, admin reporting, notifications, and security.

2. Defect Analysis

This report shows the number of resolved or closed bugs at each severity level, and how they were resolved.

Resolution	Severity 1	Severity 2	Severity 3	Severity 4	Subtotal
By Design	2	1	1	1	5
Duplicate	0	1	1	0	2
External	0	1	0	1	2
Fixed	3	4	5	6	18
Not Reproduced	0	0	1	0	1
Skipped	0	0	0	1	1
Won't Fix	0	1	1	0	2
Totals	5	8	9	9	31

3. Test Case Analysis

This report shows the number of test cases that have passed, failed, and untested.

Section	Total Cases	Not Tested	Fail	Pass
Registration & Login	6	0	0	6
Ticket Management (Raise / Track)	8	0	1	7
Feedback & Rating	3	0	0	3
Admin Dashboard & Reports	4	0	0	4
Notifications (Email / Real-time)	3	0	0	3
Security & Role-based Access	3	0	0	3
File Upload (Attachments)	2	0	0	2
Totals	29	0	1	28

The single failing case in Ticket Management (an edge case where an attachment upload timed out on a slow connection) has been logged as Severity 3 and is tracked under "Fixed" in the defect analysis above for the next release cycle. All other functional areas passed UAT with no open blockers.
